Great Britain-Other Foreign Items. (By Anglo-American cable to the Dispatch.)
Loxdon, March 18.—It is the general opinion that the striking miners of Great Britain will succeed in forcing the masters to concede their demands for an immediate advance of 5 per cent. in their wages, and a further advance of 5 per cent. on July 1st. Many more mine-owners in Nottinghamshire and Lancashire have acceded to the terms of the men. The feeling prevails that the action vesterday of the coalmine owners who, after deciding to refuse their employes increased wages, appointed a committee to confer with a committee of the men on Thursday and endeavor to secure joint action for a regulation of work and the avoidance of strikes in the future will be productive of no results, as the men will not meet the masters, but will insist upon their full demands being granted. (By Anglo-American cable to the Disparch.)

London, March 18.—The cotton-mills at Accrington, Blackburn, Bury, and Bitton are stopping work owing to the scarcity of coal because of the miners' strike. THE EMPEROR AND BISMARCK'S DIPPERENCES. Bennis, March 18.—It is stated to-day in well-informed political circles that the present difference between the Engler It weight difference between the Emperor and Prince Bismarck is irreconcilable. It arises from the Chancellor's refusal to accede to the request made by Dr. Windthorst, leader of the Clerical party in Germany, to restore to the Duke of Cumberland, claimant of the throne of Hanover, the larger portion of the Guelph fund. The report is repeated to day that the Emperor proposes to appoint General von Caprivi, who is now commander of the Teath army corps, to the chancellorship. The attitude of the Emperor in opposing Prince Bismarck in this matter is taken as an ladication of his desire to conciliate the Clerical party. If the Government is to accure a working majority in the new Reichstag it cannot well get on without a party of the Centre, which Dr. Windthorst controls.

Beaux, March 18.—When the public-worship estimates came up for discussion in the lower house of the Prussian Dut today, Dr. Windthorst said it had been his intention to review the position of the Catholies in Prussia, but that he would desist, owing to the uncertainty of the political situation.

Dr. Gossler, Minister of Eccleniastical Affairs and Public Instruction, said that he shared the view expressed by Dr. Windthorst that the Church, school and State ought to work together. Radical changes, he declared, were impending in the field of education. The new organization would mainly be effected on the lines of the Emperor's recent decree dealing with cadets in colleges.

Berlin, March 18—4:30 P. M.—The Emperor continues to withhold his formal pacceptance of Prince Bismarck's resignation. His reason for not accepting it is that the Constitution does not admit of an interregnum in the tenure of the chancellorship, and as the choice of a successor to Prince Bismarck is beset with difficulty, his Majesty defers his acceptance until he finally decides who he shalf appoint as Chancellor.

Berlin, March 18—5 P. M.—It is just announced that Prince Bismarck's resignation of the chancellorship was accepted by the Emperor at noon to-day.

CONSTIPATION.

A PAIR OF SPECIALTIES.

We've found it necessary to increase or stock of Shirt-Waists this season by everal hundred dozen over that of last ear. They're nearly all the STAIt year. They're nearly all the STAIS WAISTS, too. Since we've been in business we've tried most all of the brands—but each time the "STAR" has taken the paim. There's something about the cut of them. They don't get out of shape. A rumpled and broken starched waist is an eyesore—if they're patterned right they'll set perfectly smooth. We've herer known a "STAR" to the staff it fill.

Another thing about the "Stars" that's "taking" is the variety of the expressions. They are original designs—Prawn for them—I sed by them exclusively and then destroyed—They're new—they're tasty—for their "thinkers" are men of good judgment.

The laundered ones run from 75c to \$1.48 - In French Percaies - figured, dotted, striped in odd colors - quaint designs - Lattes' and Boys' - both. And plain white with French roll standing collars.

You can't get the "STAR" anywhere else—We sell so many they gave us exclusive control of their interests in this vicinity.

What was a few inquiries a year or so ago has grown to be a demand—a hoom—for "Skirt Sulta." We're the largest line this season we're ere carried. The largest line in fours. As big as everyhedy elses put together. Theirs stand in no comparison for unique combinations and patterns with ours, either. We've imperted many and many a dainty novelty—Any we could find—in fact—that we thought would please your tancy—And homefolks have puzzled out some criginal designs that of yourse, are meritorious. We've been almost the whole world over for novelines in Kitts—and what we haven't got ien't worth having—2% to 6 years are the sizes.

The washables for house wear are here—but it may be a little too soon to use them. Thought we'd announce their arrival—anyway.
